

CASE STUDY

OVERVIEW

- **Case Study Characteristics**
- **Develop a Case Study**
- **Preparing for a Case Study**
- **Facilitation of a Case Study**
- **Evaluating Learning Outcomes**

Definition

- **Documented study of a specific real-life situation, used as an instructional method. Students read and analyze the prescribed cases and present their interpretations or solutions based upon reasoning**

Advantages

- **Develop new insights**
- **No follow-up evaluation necessary**
- **Student input**
- **Evaluation is inherent**
- **Emphasizes practical thinking!!!**

Advantages Cont.

- **Simulates real life conditions**
- **Introduction of complex information**
- ***HIGHER LEVEL OF LEARN***

Disadvantages

- **Time consuming**
- **Instructor expertise must be high**
- **Class size/Student involvement**
- **Lower levels of cognitive domain**
- **Material may become outdated**

Characteristics

Do NOT use for...

- ❖ Introducing new instructional information
- ❖ Presenting several new ideas

Characteristics

- **Could have multiple correct answers**
- **Much of the information collected is retrospective data, recollections of past events, and is therefore subject to the problems inherent to memory**

Developing a Case ~~Story~~ *Kernel*

- The case kernel is a short, dramatic statement that captures the students' attention
- The case kernel should contain...

Case Kernel

- **The main characters**
- **A clear idea of the basic problems**
 - **dilemmas**
 - **complexities**
 - **ambiguities of the case story**
- **A clear idea of what events “carry” or “create” the dilemmas/etc**

Case Blueprint

- **Is an outline of the case**
- **List In bullet style format**
- **List the items in chronological order**
(not required but easier writing later)
- **Change descriptive information (character names, locations, dates, etc)**
- **In “Back in the Fight” the case blueprint would look something like this:**
 - **Wallace Deployed to Baghdad in March 2003.**
 - **Wallace was on the Drill Field during 9/11 and he was from New York.**

Plot Points

- **Summarize the case into several plot points.**
- **Arrange the bullets into several plot points**

Plot Points

- **Dramatize your plot points in a clear, chronological manner**
- **Plot points should engage the reader and pull them along effortlessly**

Case Story Format

- **Take the dramatized plot points and fill in the dialogue**
- **Create a hook to capture the readers attention**
- **Write in past tense and third-person**
- **Develop questions that will have the students assume the roles of the characters in the case story**

End the case

- **A happy conclusion is not necessary in a case story**
- **End the case in a way that emphasizes the problem that exists, a complex situation, or an ambiguity that is unresolved**

Prepare for Case Study

- **Gathering required materials**
- **Ensure learning outcomes can be reached**
- **Guiding questions (assume roles)**
- **Discussion notes**
- **Logistics notes**
- **Preparation of learning environment**

Facilitate Case Study

It's time to start the case!!!

- Pass out case study
- Establish ground rules

Examples:

- Profanity
- Respect the opinions of others
- Inform students of sensitive issues

Facilitate Case Study

Introduce the Case

- **Have all read the case**
- **One student brief the facts**
- **Second student elaborate**
- **Gain different perspectives**

DEMONSTRATION

Facilitate Case Study

- ***Resolve Conflict***
- ***Non-Verbal communication***

Facilitate Case Study

- **Rules of the road for case study**
 - **Listen and remember**
 - **Support each position as it emerges**
 - **Contest each position as it evolves**
 - **Be “the unexpected”**
 - **Limit lectures**
 - **Humor is OK**

Facilitate Case Study

- **Dynamics of a case study**
 - **Time**
 - **Pace**
 - **Involvement**
 - **Flow**

End the Discussion

- **Give a verbal warning**
- **Take final comments**
- **Summarize the case**
- **Always cover actual case outcome**

Evaluate Learning Outcome
